HAUS & LUFT

- Air dehumidification with RH (Relative Humidity) range of 35-80% in 5% increments
- Quiet and efficient fan 60 m^3/h
- Digital current relative humidity level indicator
- Preliminary air filter
- Carbon air filter
- EPA air filter
- Non-slip feet
- Large condensed water container – 1.5 l
- 1.0 m drain hose is attached
- High dehumidifying capacity – 5 l/day
- The refrigerant does not contain hydrogen fluorides (low GWP)
- SMART function – automatic control of the pre-set RH level
- TIMER function – delayed start and stop, set in a 24h range in 1-hour increments
- DEFROST function – automatic defrosting of the evaporator for quicker dehumidification
- SLEEP function
- Keyboard lock
- Water container level indicator
- UV bactericidal lamp
- Convenient carrying handle
- Protection against starting with an incorrectly installed water container
- power supply 220-240V 50Hz 165W
